Dr. Elmer W. Engstrom  
 Vice President  
 Radio Corporation of America  
 Director, Princeton R&D Laboratories  
 Princeton, New Jersey

Dear Dr. Engstrom:

Last year we had some correspondence in connection with General Canine's invitation to you to join this Agency's Scientific Advisory Board. It appeared at that time to be impracticable for you to join or to pay us a visit because of the pressure of other business.

I am writing you now to inquire as to your present or future availability for membership on our Advisory Board and hope to receive an affirmative reply within a few days.

If you prefer to telephone me, I will be very glad to have you call, reversing the charge (Liberty 5-6700, Ext. 6073).

Sincerely,

WILLIAM F. FRIEDMAN  
 Special Assistant to the Director  
 Executive Secretary  
 NSA Scientific Advisory Board

cc: AG  
 C/S  
 S/ASST  
 R/D - 34

M/R: This is an inquiry as to Dr. Engstrom's present or future availability for membership on the NSASAB.
